Curving

Bring it all together with a few carefully placed curves. Stylmark is able to curve virtually all of our products to meet your radius requirements. Simply provide us with dimensions as indicated below and watch your design come to life!

Required Information:

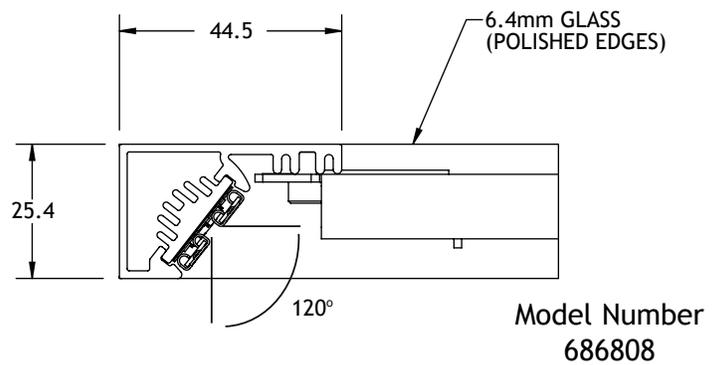

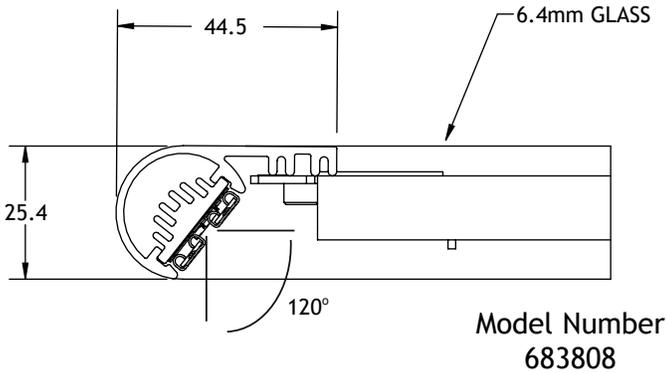

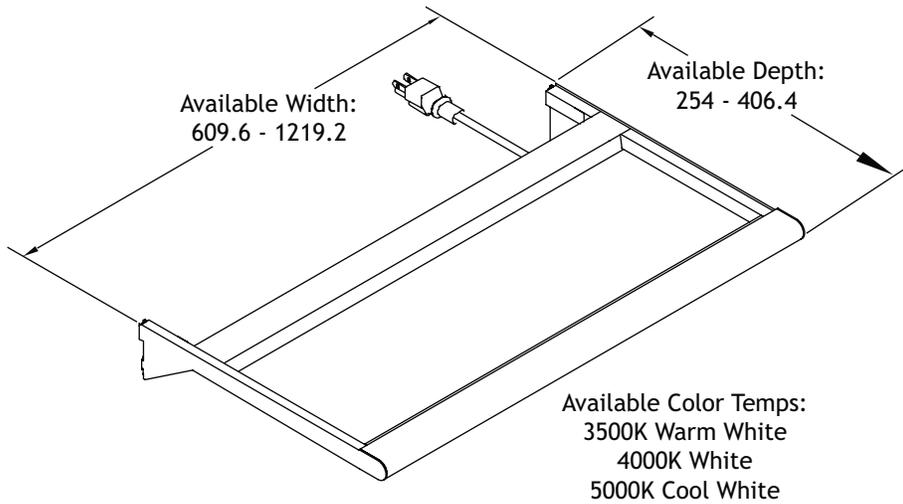

- Orientation of part to be curved
- Radius (IR)
- Arc Length (S)
- Chord (c) or Included Angle (α)
- Straight Length (L)

Notes:

- Provide AutoCAD® or SolidWorks® drawing if available.

LED Plug-In Light Shelf

Stylmark's LED Plug-in Light Shelf provides a low voltage, low maintenance alternative to conventional lighting. The small footprint of the LED emitters allows for a slim profile shelf to maximize viewable merchandising area. With low heat output and no UV, this shelf is an ideal solution for cosmetic, crystal, chocolate or fine leather applications.

 - Stylmark LED Plug-In Light Shelf is ETL listed for U.S. and Canada per UL Standards.

LVSHF-API

Plug-In Light Shelf

The Plug-in Light Shelf allows several tiers of product to be lit from top to bottom. This rendition of the shelf features a reflector shell that may be fabricated to display back-lit signage. The shell snaps easily on and off the shelving frame to facilitate lamp and signage changes. The shelf is also available with an optional slide out shelf to create multiple marketing environments.

With anodized aluminum reflector shells and matching powder-coated steel shelf frames, the Plug-in Light Shelf comes largely pre-assembled. To install, simply attach the units to standards, position the glass shelving in place and connect the power cord.

Elliptical Light

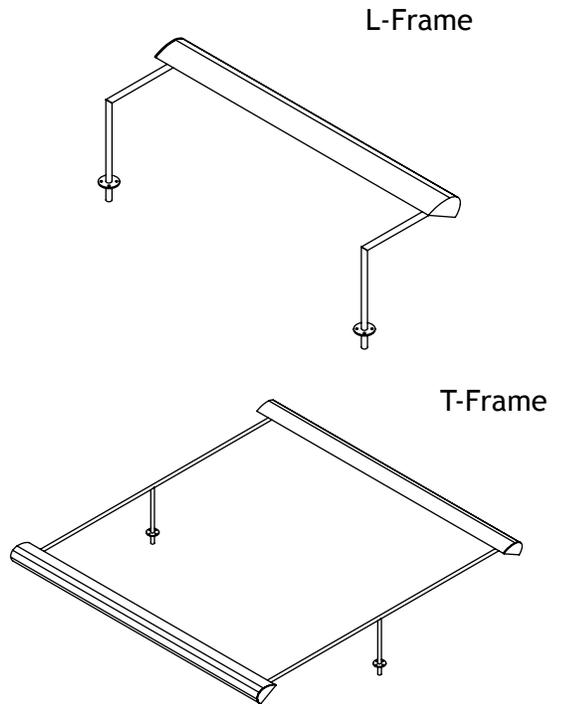

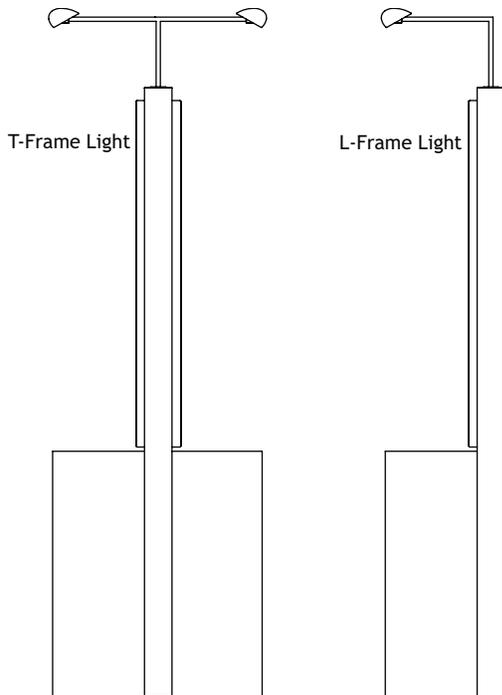

Cast a uniform wash of light on perimeter walls and stationary fixtures with the Stylmark Elliptical Light. Our unique swivel mechanism allows for easy redirection of light and the continuous shell design provides a uniform look when using multiple lamps. Stylmark's Elliptical Light is available in a variety of configurations to maximize design flexibility.

ELIP01

Framed Light Shelf

Stylmark's Framed Light Shelf is a shadow-box style system designed to elegantly display china, crystal and other fine giftware. Constructed of an aluminum frame, this shelf utilizes a hard-wired lamp and accommodates a prismatic lens to spread light evenly between shelves. For longer applications, this shelf is designed to hold one continuous lamp without center bracket interference. To ease installation, fully adjustable brackets allow for slight variations in standard placement.

LVSHF-SPS

Fluorescent Power Track Light Shelf

Lighting shelves top to bottom has never been easier, thanks to Stylmark's patented Power Track Light Shelf. This self-contained lighting unit simply connects to a Stylmark powered shelf standard. The result is a beautifully lit shelving unit with no visible cords. This rendition of the shelf features two reflector shell profiles that may be fabricated to display back-lit signage. The shell snaps easily on and off the shelving frame to facilitate lamp and signage changes.
